Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 21, 2007 has been entered.

Oath/Declaration

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

The oath/declaration filed December 5, 2003 acknowledges the duty to disclose information known to be material to the "examination" of the application in accordance with 37 CFR 1.56(a). This language is unacceptable and the term "examination" must be replaced with "patentability" and the Federal Code must be properly identified as 37 CFR 1.56.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: applicant's amendments are deemed to distinguish the claims over the prior art of record. In particular, the recitation of a cutting member disposed on the first grasping portion and in contact with the heat generating portion is deemed to distinguish over the prior art references that provide a separate cutting member and coagulating/heating member. Similarly, the recitation of the protrusion on the first engaging portion and having a

heating unit in the protrusion is distinguished over the prior art of record which only discloses a cutting member as the heating member, and not a separate heating member located in the engaging portion and in contact with a cutting protrusion.

It is noted that previously withdrawn claims 7-10, 21, 23 and 24 have been rejoined in view of their dependency from now allowed independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
